## Manufacturing, Structural Fabrication & Repair Services

Ayres Engineering are a very reliable and professional business with proven experience & expertise in the Precision Welding and Fabrication sector, servicing the Farming Industry, Residential & Commercial customers as well as Marine and Events - **You can rest assured your project is in safe hands**

## Our Support Services include

### Agriculture & Plant

Being located in the heart of the Farming area we have gained experience across a wide range of services to the Farming Industry including bespoke fabrications, custom manufacture, machinery repair, on-site welding, and More ....

### Residential

We can provide a wide range of decorative entrance gates, double gates, handrails, decking railing, ramps, alley gates, barriers, etc. Finishes include painted, powder coating or hot dip galvanized

### 10 Years +

We are proud of our attention to detail and as every customer is an individual, we believe we deal with every order or enquiry on an individual basis to provide an efficient and personal approach. We always work closely with our clients at every step from initial enquiry or meeting to completion and handover

We have more than a decade of experience in prefabrication at our own workshops and working on customers sites. We also carry out extensions and refurbishments to existing structures. Throughout these different types of projects we provide a consistently high quality, professional service and ensure that all work is carried out safely, efficiently, on-time and within budget

**Ayres Engineering** will undertake the site survey, manufacture & installation. We will cut, weld, fabricate, finish and install your hand crafted, customised products, to your chosen design - Your Single Source !

### Construction

As fabrication specialist we deliver our high quality precision products to both **commercial and industrial** properties. Including Structural Steel fabrications, hand railings, fire escapes, lifting beams, ramp access, walkways, and More ....

### Paint Finishing

Ayres Engineering has the capability and expertise to provide a high quality paint finish to your newly fabricated items in accordance with your specific requirements

We manufacture for customers locally and on the mainland : Agricultural, Plant, Residential, Commercial, Marine and Events
